Scope of services

Manufacture of own products:
- brass sanitary connections and fittings used in water distribution and central heating installations as well in LPG supply systems
- high and low LPG and CNG gas pressure fittings used in car installations
- filter units and filter cartridges made of various filtration materials: bulpren, paper, polyester and fiber-glass

Subcontract CNC turning and miling services:
- manufacturing on turning and milling CNC machines products of brass, aluminum, stainless steel, structural steel and plastics
- production of forged brass articles
- production of cast brass articles
- mass production ability
- OEM production

Plastics

Steel – Brass

Aluminum

CNC Manufacturing

Brass, aluminium, steel and plastics

Our production resources:

- automatic, high-efficient CNC machining centres with rod feeder and milling with precise measuring probe
- vibro-abrasive machining devices
- electronic screw tapping machines
- automatic drills
- ultrasonic washes
- laser marking
- automatic saws
- hydraulic presses
- pneumatic glue dispensers
- automatic packaging machines
- pad printing devices

Our technological capabilities:

- CNC turning a Ø 65 diameter rods and workpiece length up to 550mm
- CNC milling for a working space with dimensions 1200x600x500
- vibro-abrasive machining (tumbling)
- laser marking
- rifling
- drilling
- cutting

Our products meet safety requirements due to:

- using only the highest quality materials for production
- periodic audits of certifying organizations TÜV SUD and TÜV Rheinland
- audits of our contractors
- constant supervision of our company by Polish Transport Technical Supervision

Partnership

We cooperate with partners from more than 40 countries and we are constantly expanding our clients group.

Certools is export oriented company and we are present on all continents.

Creation

We build permanent and long-term relations with respect for ethics and business integrity.

With hard and honest work we gain trust, which is the background of B2B partnership in the field of customer's own brands and our commercial assortment.

Participation

Every year we participate in many industry EXPO's organized around the world, including: Figas Peru, ACT Expo USA, Gassuf Russia, Altfuels Mexico, GasDays Warsaw, Subcontracting Poznan.
