

KAVRO ACH 132 B - maximum protection helmet

The Kavro ACH 132 B is a tactical helmet that offers uniform protection from high-velocity ballistic threats across the complex & compound shell of the advance combat helmet. The stability harness with 'Twistfit' and an extremely comfortable suspension system in the helmet provides extra stability and comfort over prolonged usage and during tactical manoeuvres.

-  EXCELLENT SHOCK ABSORPTION
-  TWISTFIT
-  CHEMICAL SAFE
-  ANTI-FUNGAL
-  MODULAR PADDED SUSPENSION SYSTEM
-  FRAGMENTATION PROTECTION
-  LIGHTWEIGHT
-  ANTI-ALLERGIC
-  ALL WEATHER PROOF

Stab-Proof Vest

By applying WIF (Welcron Inorganic Fabric), which involves applying special surface processing technology to the surface of Aramid, the stab proof armor exhibits outstanding ability that reduces initial penetration risk. It is lightweight and extremely flexible, enabling agile movement.

SPECIFICATION of stab-proof armor

Standard	NIJ-STD-0101.06
Level (Standard)	Level 1 / E1, E2 (P1, S1, Spike) Level 2 / E1, E2 (P1, S1, Spike)
Material	Aramid, WIF (Welcron Inorganic Fabric)
Features	Extremely lightweight and flexible due to composite design using our company's patented material (WIF) Can be removed from the front/back Adjustable banding offers excellent wearability

Explosion-Proof Tent and Blanket

Function:

- Tent: Decontamination/disposal of chemical and biological agents/IEDs, prevention of damage spread
- Blanket: Explosive disposal, protection of lives/facilities & suppression of explosion spread

Specification:

- Tent size: length : 2000 ± 100 mm, height : more than 1000mm
- Tent cover size: length : 2000 ± 500 mm, height: more than 1000 mm

Weight: 20 kg or less (including tent, tent cover, support items)

Bulletproof performance: V50, over 500m/sec

Material:

- Outer shell (aramid or nylon)
- Inner shell bulletproof material (UHMWPE, Aramid etc.)

Buoyant Bulletproof Vest

Product Overview

The Buoyant Bulletproof Vest is a cutting-edge personal protective equipment designed to offer both ballistic protection and flotation support. Ideal for maritime operations, amphibious missions, and coastal defense, this vest ensures survivability in both combat and water environments.

Key Features

Integrated Ballistic and Buoyant Protection

Provides certified ballistic resistance (NIJ Level IIIA or higher) along with positive buoyancy, eliminating the need for a separate life jacket during water operations.

High-Durability Waterproof Materials

Made from water-repellent and durable fabrics, the vest is optimized for harsh marine environments and ensures reliable performance under extreme conditions.

Lightweight and Ergonomic Design

Engineered for extended wear and mobility. Adjustable straps and quick-release buckles offer a secure and comfortable fit.

Applications

- Navy and Marine Forces
- Coastal and River Patrol Units
- Search and Rescue Teams
- Special Operations in Amphibious Environments

Materials	PE, buoyant foam
Level (Standard)	Level IIIA (NIJ-STD-0101.06)
Weight	4 kg (+/- 0.5) (depending on size and model)
Buoyancy	Approx. 100N
Size	S / M / L / XL
Color	Orange (custom colors available)

Buoyant Stab-Proof Vest

Product Overview

The Buoyant Stab-Proof Vest is a multi-functional protective gear designed for personnel operating in maritime or coastal environments. It combines flotation support with stab-resistant protection, ensuring safety in both aquatic and tactical scenarios.

Key Features

Dual Protection Functionality

Offers certified ballistic protection while providing buoyancy for survival in water.

Lightweight and Ergonomic Design

Design Engineered for comfort and mobility during extended missions. Adjustable straps ensure a secure and customized fit.

Integrated Flotation System

Built-in buoyant materials eliminate the need for additional life vests, enhancing combat readiness in aquatic environments.

Durable Outer Shell

Constructed with high-strength water-resistant fabrics for enhanced durability in harsh conditions.

Applications

- Maritime Police & Coast Guard
- Marine Corps / Naval Units
- Special Forces & Amphibious Task Units
- Shipboard Security Officers

Materials	Aramid, buoyant foam
Level (Standard)	Level 1 (E1, E2) / S1, P1, Spike (NIJ-STD-0115.00)
Weight	4 kg (+/- 0.5)
Buoyancy	Approx. 100N
Size	Free
Color	Dark, Grey, Black (custom colors available)
